## **PUBLIC STATEMENT**

'In regard to the Hanham Community Centre Sports Ground on Abbots Road. The Trustees were approached around 18 months ago with an outline enquiry and proposition for the provision of alternate premises. Since then the Trustees have had no engagement from the company, but it was left that the Trustees may be interested in propositions which would enhance and improve the facilities we offer to our members. Therefore any publications or applications have been proposed without consultation with the Trustees. Needless to say the Trustees would be happy to engage to consider any proposal when they are sufficiently developed, and to consider the impact on the charity, its members and the wider community.'
